

Due to system changes, there are several Webl reports that have stopped or will stop working. As a result, these reports will be archived and/or replaced with new versions.

This will help to declutter many of the report folders and reduce confusion and maintenance overhead. This effort will also have the additional benefit of making reports easier to find and less frustrating to use and will combine similar reports into single, multi-tabbed reports.

Combining multiple reports into single tabbed reports may impact the way that you export your data to Excel or CSVs. Please be aware that any shortcuts to the reports that are ultimately removed will break, so if you encounter "report not found" errors, you may need to manually find the new report.

The following folders in Webl are part of this phase of the Webl clean-up effort:

WISDOM/Employment Programs and all subfolders

The table below shows the scheduled archival date, the report that will be archived, and the report that will replace the archived one (if any). The reports in this table will be archived and/or replaced on **Monday, March 28, 2022**:
